YOU TEACH!

You know that an excellent way of showing that you understand something, is to teach or test other people.

If you have time, write five pairs of words, in which two new words can be made by moving a letter from one word and adding it to the other.

Have fun, find some tricky words, but make sure that you can explain the answers.

Test your friends and family and show them who is Number One at Verbal Reasoning!

Cut and paste the **CHECK POINT** into your workbook.
